Rock'n Chair Productions, now famous for quality concerts presents another in our line of continuing events. This one is high in the beautiful Sierra foothills yet only a short scenic drive. Relax in comfort on a grassy hill that gently slopes into an outdoor amphitheatre. Enjoy the mountains and trees in the background as you listen' to some of the finest musicians to be found anywhere.

Stroll through the Renaissance Faire where the finest arts and hand-made crafts in all the land will be displayed and sold by their makers. Games, amusements, performances, and even hot air balloon rides for the daring. What better way to kick off the summer? We remind you that ticket sales will be limited so please buy early.
